SECURITY DRAWER PEDESTALS FOR STORAGE OF DRUGS TYPE RSH A2-4 & A1-6

This label is placed on the unit.

Use

For storage of: drugs, medicine, tablets, etc.

Description

The body is a welded unit built of cold rolled steel.

The drawers are self-closing.

100% flexible interior dividers.

Each drawer is locked to the body by a locking bolt placed at the rear inner side of the body.

Height Adjustment

The height can be adjusted with adjustable feet for A2-4 between 722-747 mm and for A1-6 between 1083 and 1118 mm. If the feet are removed the height will be for A2-4 710 mm and for A1-6 1068 mm.

Fastening

In the bottom of the body there are two holes for securing the unit to the floor if required.

Locking

Pin code lock. The unit is equipped with Robur's unique pin-code lock, which is integrated into the construction.

From the key-board individual codes and time delays can easily be programmed for each drawer.

It means that different type of drugs with different security levels (A and B drugs) can be stored in different drawers.

Interior fittings

All drawers have flexible movable plastic dividers.

Operating voltage

Each unit is connected to the mains 240 A.C. by a transformer.

Operating Voltage 12 A.C. Maximum power use is 1,6A.

A backup battery is available on request.

Finish

White RAL 9010.

Dimensions and weight:

Please see overleaf.

Dimensions and weight

External	Height	Width	Depth*	Weight
