Height between shelves (max height of computer/tablet): 30mm.  
Adjustable shelf width (max width of computer/tablet): 157 mm - 262 mm.  
Adjustable shelf depth (max depth of computer/tablet): 200 mm - 415 mm.

Grounded and CE-marked for safe use.

Prepared for anchoring. (Anchoring kit is not included).

Constructed in aluminum sheet for high safety and light weight for easy movement.

## WEIGHT AND MEASUREMENTS

	TSS Light
<b>External measurements</b> H * W * D** mm	1115 * 446 * 709
<b>Internal measurements</b> H * W * D mm	978 * 320 * 578
<b>Weight</b> kg	45
<b>Capacity</b>	30 laptops or 30 läsplattor

\* Exterior height - includes the wheels.

\*\* Exterior depth - Includes handle.

TSS Light is equipped with a slot for easy locking when anchored to a wall. Prevents unwanted mobility.

2 pcs 315 mm + 2 pcs 100 mm special wheels of the highest quality provide a very easy-rolling and well-functioning wagon.

The power adapters are stored in adapter bags that are hung on hooks inside the rear door or plugged directly into the socket strip. The power adapters are easy to detach and take with you when you need to charge outside the wagon.

Fan and well-sized hole pattern ensure good ventilation and enable the computers to be charged and also in operation in the wagon.

## OPTIONAL FITTINGS

Power strips with 10 outlets
