

## Laptop wagons TSS

The laptop wagons (charging wagons) TSS are designed for practical and safe storage of tablets or laptops. The mobility allows the wagons to function as mobile classrooms. TSS wagons have a very safe and solid construction in powder-coated sheet steel and are built with the same locking mechanism that classified security cabinets are built with.

Painted with Grey/Black powder coating.

Standard equipped with a changeable key lock.  
Electronic combination lock on special order.

Standard fitted with shelves, power strips and handles.  
More optional fittings are possible.

Grounded and CE-marked for safe use.

Prepared for anchoring. (Anchoring kit is not included).

Constructed in powerful steel for high safety and easy movement.

<b>Standard equipments</b>	16 pcs shelves 3 pcs power strips with 10 outlets	15 pcs shelves 2 pcs power strips with 10 outlets
<b>Capacity</b>	15 laptops or 30 tablets	

\* Exterior height - includes the wheels.

\*\* Outside Depth - Includes handle.

The power adapters are stored in adapter bags that are hung on hooks inside the rear door or plugged directly into the socket strip.

TSS wagons are equipped with a slot for easy locking when anchored to a wall. Prevents unwanted mobility.

Special wheels of the highest quality provide easy-rolling and well-functioning wagons.

The power adapters are easy to detach and take with you when you need to charge outside the wagon.

A thermostatically controlled fan in the ceiling enables the computers to be in operation in the wagon. The fan is not needed when charging only. (The fan is not included as standard)

## OPTIONAL FITTINGS

Thermostat controlled fan  
Cannot be mounted on model TSS 1500

Electronic combination lock  
Insys combilock 200 simplex

Power strips with 10 outlets
